PRESS RELEASE

sTrackIt!

System for tracking and managing of the W8xx radio buoy

METS 2015 – STAND WAMBLEE SRL No. 05.113 Hall 5

Faenza, Italy – 28th October 2015

On the occasion of METS 2015 Wamblee is glad to present its **sTrackIt!**® system.

sTrackIt!® is an integrated solution to manage the fleet of Wamblee series W8 radiolocation systems, with advanced functions of tracking and monitoring.

sTrackIt!® allows a continuous and accurate monitoring of the fleet by using the **Iridium**® satellites network in real time. The centralized management of the database also allows a use in remote mode, in different locations divided in operative areas.

sTrackIt!® allows to:

- Monitor radio buoys position all over the world, even in polar regions
- Know the functioning state and the water surface temperature
- It is able to send other parameters and information defined by the user
- Each radio buoy can be configured at a distance
- Sophisticated and user-adjustable system of alarm management
- Wide possibility to generate statistical reports

The **sTrackIt!**® system gathers **technology**, **quality** and **efficiency**, all fundamental features, by professionals for professionals.
